JACKSONVILLE, ILLINOIS, WEDNESDAY MORNING, FEBRUARY 3, 1904

PAISED BY DEMOCRAT

**SAYS THE PRESIDENT DID
RIGHT IN THE PANAMA
AFFAIR**

**And Declares He Has the Popu-
lar Support of the Democrats.
House Passes Bill in Behalf
of Porto Rico Delegate.**

SENATE.
Washington, Feb. 2.—Clarke, the new Democratic senator from Arkansas, made his first speech in the senate to day. He spoke for two hours and announced his endorsement of every position taken by the president in connection with the Panama revolt and in negotiation of the treaty with the new state. He even said that in view of the provocation given by Colombia, the president might have been expected to go farther than he did in advancing the cause of Panama. He declared there no more popular support of the course of the president's policy among Democrats than among Republicans and said that the Democratic votes necessary to ratify the treaty were assured.

HOUSE.
By unanimously agreeing to the resolution amending the rules of the house to day the resident commissioner to congress from Porto Rico was given additional authority, equal in all respects to that of a delegate from a territory, action not requiring the concurrence of the senate. The bill which provided for a "delegate from Porto Rico" passed the house during the last congress, but was amended by the senate to such an extent that it failed. A bill duplicating the action of the house at the last session is now pending, but meanwhile Porto Rico will receive under the action taken to day practically all benefits extended in the measure.

At lively parliamentary debate preceded the adoption of the resolution which was reported from the committee on rules as "privileged" matter. Minority members of the committee wished to set a date in the resolution for consideration of the bill in question and to extend in the meantime all privileges of a delegate to Mr. Degetau, resident commissioner. Falling in this the minority after criticizing the majority and also the senate for its action of last session, supported the resolution.

Several hours were spent by the house in passing five private claims bills and beginning consideration of the omnibus claims bill.

CONFIRMATIONS.
Postmasters: Dean J. Hotchkiss, Fox Lake, Wis.; Ira C. Richardson, Thief River Fall, Minn.; Clarence M. Ziegler, Buncheon, Mo.; Wm. E. Osterwald, Festus, Mo.; James M. Freedman, Shelbyville, Mo.; Isaac V. McPherson, Aurora, Mo.; S. R. Dunham, Piedmont, Mo.

ad WAR.
St. Petersburg, Feb. 2.—A dispatch from Vladivostok issued here by a semi-official agency, says the Russian fleet there has been fully equipped for immediate service and prepared for sea. All wood fittings of the ship have been removed. The harbor is being kept open by ice breakers. The fleet consists of four cruisers and a transport.

ALL PERISH.
Council Bluffs, Iowa, Feb. 2.—Mrs. Peter Christensen, mother of the five children who perished in their home last night, died to day as the result of her burns. The bodies of the five dead children have been recovered.

FIRES DRAWN.
Pittsburg, Feb. 2.—Fires have been drawn at the window glass factories of the D. O. Cunningham Glass company and Cunningham & Co., and for the first time in many years no window glass will be made in Pittsburg this season unless some arrangement is made between them and their workers. The firms mentioned proposed to start on a reduction of about 40 per cent from the Philadelphia scale and the men refused to consider the proposition. With the going into bankruptcy of S. McKee & Co. last week and previous closing of its plants by the American Window Glass company, the industry which had made that district famous for over a century practically ceased to exist.

KILLED IN COLLISION.
Chicago, Feb. 2.—In a collision to night between a crowded suburban train on the Chicago Terminal railway, and a switch engine, two men were killed and a score of others slightly hurt. The accident occurred just as the train was leaving the station at Ashland avenue, with the car platforms crowded with passengers. The force of the collision hurled a water tank from its fastenings down on the front platform of the car. Two men were killed, both laborers, were standing on the platform and were crushed by the tank. All other passengers on this platform were hurt, but none seriously.

POSTAL TRIAL.

**Dallas B. Groff Testifies in His
Own Behalf and Says He Had
No Connection with
Machen.**

Washington, Feb. 2.—Testifying to day in his own behalf in the postal trial to day Dallas B. Groff, brother of Samuel A. Groff, declared that when he sought to introduce the letter box fasteners into the postal service he had no idea of "treachery" Machen through the Lorenzes or anybody else directly or indirectly. He denied Machen's name ever was mentioned to him at the time Lorenz made the agreement in 1895 with Groff brothers and said that had Lorenz intimated in any way he would use his influence with Machen all negotiations would have been at an end. When he sent checks to Lorenz in Toledo he said he knew nothing of remittances being forwarded by Lorenz to Machen. Samuel A. Groff told of various steps being taken by him to interest postal employees and officials in the invention, for and after it was patented, and testified that although he had to see Machen's chief clerk about the matter, he never was able to see Machen, who always seemed to be busy.

BANK CLOSED.
Charlestown, W. Va., Feb. 2.—The Farmers National bank has been closed by order of the comptroller of currency. Bank Examiner Robinson has been placed in charge. Assets are \$1,250,000. It is thought the bank will resume operations.

NOT A CANDIDATE.
Chicago, Feb. 2.—Judge George W. Brown, of DuPage county, has returned to Chicago from Iowa and put a quietus on his boom for the Republican nomination for governor by declaring he is not in the race. The announcement the judge had left the bench to enter the governorship race was discounted by the statement "No one had authority to make such a statement for me."

THE EUROPEAN SQUADRON.
Constantinople, Feb. 2.—The United States squadron left Beirut to day for Culebra, West Indies, to join the naval maneuvers.

DIED FROM BULLET WOUND.
Louisville, Ky., Feb. 2.—James K. Shrader, a prominent young lawyer, who had just completed a term as assistant commonwealth attorney, died to day from the effects of a bullet wound inflicted at midnight by W. E. Neal, of Owensboro, Ky. The trouble arose it is said over suspicions which Neal entertained as to Shrader's relations with Mrs. Neal.

A TRAGIC ENDING.

**Just Married and Turned Out
by Parents, a Young Couple
Commit Suicide.**

Saginaw, Mich., Feb. 2.—The wedding here last week of Corporal Charles A. Valois, of company H, 26th U. S. Infantry, home on a furlough, and Miss Mabel Steiner, had a tragic climax last night, when they took carbolic acid. Mrs. Valois is dead and the husband in a critical condition. The match was the result of love at first sight and met the disapproval of the parents of each of them. They left a letter saying their parents had turned them out and they had no place to go and had decided to die together.

GANS WINS FIGHT.

Detroit, Feb. 2.—Joe Gans, light weight champion, to night demonstrated his superiority over Mike Ward, of Sarla, Ont., light weight champion of Canada, in so decided a manner that police stopped the bout at his expiration of two and a half minutes of the tenth round. Ward was just able to stagger about the ring and another punch would have put him out. He was so badly beaten that it took his seconds over an hour to thoroughly revive him after he was led to his corner. The Canadian had slightly the better of the first round, but in the second Gans began to land on Ward's jaw and from then until the fight was stopped the champion kept Ward's head bobbing back with his punches, though Ward did make a showing in the last minute of the third, and recuperated and fought stronger in the seventh and eighth. In the ninth the hell saved Ward and when he came up in the tenth he was so groggy and so hopelessly beaten police stopped the fight.

A "DITOR'S RECOMMENDATION.

Mr. H. J. Keeler, publisher of the Press, Maiden Rock, Wis., writes, "Allow me to say that I have recently used a bottle of Hart's Honey and Horehound and found it a valuable remedy for a cold or cough. I have personally recommended it in several cases and hear a good word from all." When our readers need a reliable medicine for Colds, Coughs, Croup and Whooping Cough there is no other so satisfactory as Hart's Honey and Horehound. Large bottles 25c, 5c and \$1. Sold by Lee P. Alcott.

COTTON TAKES A SLUMP

**HEAVY SELLING AND VIO-
LENT BREAK IN THE
STAPLE.**

**Sensational Scenes on the New
York Stock Exchange—Trans-
actions Reach the Two Million
Figure—Coffee Also Active.**

New York, Feb. 2.—Heavy selling and a violent break in prices marked to day's business in the cotton exchange, the day's slump being more sensational than recent advances which have steadily sent cotton quotations upward until yesterday they reached the highest level since 1875. The day opened with as sharp a break in prices, but the market steadied. This was followed by confirmation of the report that Daniel J. Sully, supposed leader of the upward movement intended to take a vacation. It was inferred this meant the successful disposal of his interests and abandonment of his campaign. The market immediately went to pieces, quotations melting away 5 and 10 points at a time. In fifteen minutes of this panic with every broker a seller and none a buyer, prices fell vertically almost a cent a pound and May option in less than an hour registered a decline of a cent and a quarter. The sensational decline continued apparently until he spent itself. After that had been going on for about an hour and forthwith as how lived out, a few buying orders appeared and served to allay the storm of liquidation and short selling. Then shorts began to cover and there was a quick rally from 70 to 75 points. The close, which was reasonably steady on active options at from 20 to 25 points above low points of the day. Only once before in the history of the cotton exchange have the total transactions in one day exceeded those of to day, when the two million figure was reached.

New York, Feb. 2.—Record breaking activity, coupled with considerable excitement, developed in the coffee market to day. After opening irregular at an advance of 10 points to a decline of 10 points the market was hammered down by the persistent selling of importers until stop orders were reached. The market closed steady at a net decline of about half a cent a pound, with sales of 55,000 bags, representing the largest business of one day in the history of the exchange.

SNOW STORMS.

Kalamazoo, Mich., Feb. 2.—One of the heaviest snow storms of the year is sweeping this section to night. A Lake Shore train is fast in a snowbank near White Pigeon. Trains on all lines are six to ten hours late.

Detroit: A heavy snow storm is raging at Deckersville. That town has had no mail train for four days and supplies of coal and flour are exhausted.

Niles, Mich.: During a blinding snow storm to night two trains on the Grand Rapids and Indiana railroad collided. Ten people were hurt, none seriously.

A blizzard swept northern Michigan to night. A Big Four passenger train is buried in a snow drift twelve miles north of Niles and passengers were conveyed to nearby towns on bob sleighs.

Knoxville, Tenn., Feb. 2.—Fire in the heart of the wholesale district to night caused the loss of \$300,000 and lives of two firemen who were caught when the walls of a building fell. The property destroyed included the Phoenix building, Murphy & Robinson, wholesale millinery; Cullen & Newman, wholesale notions; Cullen & Shields, wholesale glassware and machinery; M. L. Ross & Co.

FIRE LOSSES.

Canton, Ohio, Feb. 2.—Fire, started by an explosion of a headlight and fanned by a blizzard, to night destroyed the machine shops and carpenter shops of the Wheeling & Lake Erie railroad. Loss, \$75,000.

DEATHS.

Springfield, Feb. 2.—Richard Anderson, major of the second battalion, eighth infantry, Illinois Guard, died to night.

COMMITTEE MEET.

St. Louis, Feb. 2.—Pursuant to a call the committee on arrangements for the Democratic national committee met here to day. Those in attendance were Senator James K. Jones, of Arkansas, Wm. J. Stone of Missouri, J. M. Guffey of Pennsylvania, D. J. Campau of Michigan, J. G. Johnson of Kansas, Norman J. Mook of New York; J. M. Head of Tennessee, John E. Osborne of Wyoming, C. A. Walsh of Iowa. The committee will probably be in session two days perfecting arrangements for the convention.

FAILURES.

Houston, Texas, Feb. 2.—Temporary receivers have been appointed for John H. Kirby, lumber dealer. Also the Houston Oil company. About noon to day a small run was started on the Plattsburgh and Mechanics' National bank, of which Kirby is president. All demands were paid.

AT SEA.

**Detectives in the Case of Miss
Schafer Completely Lost
for Evidence.**

Bedford, Ind., Feb. 2.—Miss Eva Love, room mate of Sarah Schaeffer has been questioned by detectives and has in their opinion told everything she knew of any incidents prior to Miss Schaeffer's murder. It has developed Miss Love knows nothing of value. She has been ill for several days from reaction following excitement of the murder, having exhausted what they hoped would be a source of valuable information the detectives now admit they are wholly at sea.

DECEASED.

Altamont, Feb. 2.—A warrant was sworn out for the arrest of Lee Deford, cashier of the Bank of Altamont, charged with the embezzlement of \$21,000 of its funds, but he left the city before it could be served. The bank has been placed in the hands of a temporary receiver.

OPENS PARLIAMENT.

**With Much Ceremonial—British
Law Makers are Convened
by King Edward.**

London, Feb. 2.—King Edward opened parliament to day with all the ceremonial that has been in vogue since his accession to the throne. The weather conditions were too depressing to permit of much enthusiasm. After the members of the house of commons had assembled in the house of lords the king read his speech from the throne.

Touching the Alaska decision the king stated that while some points were unfavorable to the British claim, nevertheless it was a matter of congratulation the controversy was finally settled. The crisis in the far east was referred to briefly. The king said any assistance his government can usefully render towards promotion of a pacific solution will be gladly offered. The usual reference was made to the satisfactory character of foreign relations.

Winter coughs are apt to result in consumption if neglected. They can soon be broken up by using Foley's Honey and Tar. J. A. Obermeyer's Drug Store.

RUSSIAN REPLY

St. Petersburg, Feb. 2.—The czar now has before him the report of the special committee on the Russian response. All papers relating thereto were submitted to him yesterday by Grand Duke Alexis and the czar is giving them serious consideration. It is authoritatively said it may probably be several days before the response is forwarded to Tokyo. Prices on the bourse are again weak.

Paris, Feb. 2.—Havre Agency has circulated a dispatch to the effect Russia's reply to Japan, the substance of which has been communicated to foreign chancellors everywhere, has made an impression war will be avoided.

Views have been exchanged between the United States, France and Great Britain on the subject. Concessions therein go beyond general expectations and illustrate sentiments of equity and loyalty actuating the czar. If in spite of very large satisfaction Japan will receive the issue of a crisis and there should be war, Japan will incur the whole responsibility and find herself morally isolated. It concluded the reply is only awaiting its final draughting and will be presented Feb. 6.

St. Petersburg, Feb. 2.—Prince Kilkoff, minister of communications, started to day on inspection of the Siberian and trans-Balkan railways.

NO AGREEMENT.

Indianapolis, Feb. 2.—Members of the scale committee of the joint conference between operators and mine workers of the central competitive district are working with little immediate prospect for agreement and from widely separated view points. At an early conference of miners it was decided to stand by the demands made by them. The operators in declaration have abandoned their specific demand for a 15 per cent reduction, but insist upon a "substantial reduction" in wages.

COLD WEATHER REPORTS.

St. Paul, Feb. 2.—Specimens from Baldwin, Wis., and Jamestown, N. D., say the worst blizzard of the season is raging, cold is intense and snow is drifting badly. Trains are delayed and telegraphic and telephonic communication prostrated.

SAVED NOTHING.

Chicago, Feb. 2.—Arbitrators in the strike of livery drivers announced a decision to night. The conditions as to the men are practically the same as before the strike. Old contracts, against which the struck, are renewed except in two particulars—there shall be no more posting of union delegates in stables and owners are not bound to have uniforms made by union tailors. These conditions are in favor of owners.

PUBLIC FUNDS TO BE RECALLED

**SECRETARY SHAW WANTS
A PORTION OF MONEY
FOR CANAL.**

**National Bank Depositors Will
Be Called On to Return About
\$30,000,000—Date Not Yet
Decided Upon.**

Washington, Feb. 2.—It is the general expectation in administration circles the Panama treaty will be ratified about the middle of February and in anticipation of that event Secretary Shaw will soon take steps looking to the recall of an portion of the public funds now in the hands of national bank depositors. This will probably approximate 20 per cent or \$30,000,000. The exact time when the call will be made is not yet settled, in view of uncertainty as to date of ratification, but notice to banks in all probability will be sent out as soon as possible for that date. No actual payments, however, are likely to be made for at least a month after the ratification, as it expected the department of justice will require that much time in which to adjust and settle various comparatively small claims against the canal property held in Colombia and France, which this government will see are liquidated and then discharged, at least before all of the \$30,000,000 is paid. Shaw declines to discuss details of his plan of payment, beyond saying the matter has been practically arranged in a manner which insures the money market against disturbance.

It is believed the total payments growing out of the canal purchase will be made without sending abroad any of the actual cash whatever.

NEWS ITEMS.

The Wisconsin Land company looking line in Shawano county from Anika to Regla has been sold to the Chicago North-western. The road will be modernized and extended to Shawano.

W. L. Fuchman, United States minister to Panama, sailed last night for New York. Charged with robbing the body of a woman victim of the Iroquois theatre fire, Louis Witze, a saloon keeper, was Tuesday, was found guilty and T. McCarthy and Charles Conway, were convicted of aiding Witze.

Senator Hanna, who is seriously ill with grip, was reported somewhat better yesterday.

At Justin, Tex., residence of J. D. Mayfield was burned last night and two little girls burned to death. The mother is not expected to live. Several other children were badly burned.

At Somerset, Pa., the house of Frank Bennett was destroyed by fire yesterday and two children burned to death.

In a freight wreck near Pinday, Tex., east of El Paso, three men were killed.

Fire at Cincinnati last night destroyed the Great China Tea company building and partially destroyed four adjoining buildings. Loss, \$200,000.

FOUND GUILTY.

Wilmington, Del., Feb. 2.—Rev. Robert A. Elwood, pastor of the Oliver Presbyterian church, this city, was tried to day by the presbytery on charges growing out of a sermon entitled "Should the murder of Miss Helen Bishop be lynched?" preached by him the day before George White, the negro murderer, of Miss Bishop, was burned at the stake, was found guilty to night on three of the six specifications presented against him. The committee appointed to fix the punishment recommended that Elwood be censured to be more careful in the future. The presbytery accepted the recommendation.

CIVIL CONTROL.

Denver, Feb. 2.—The reign of terror in Teller county, where members of the Western Federation of Miners have been on strike, is at an end. This was brought about to day by the issuance of a proclamation by Governor Peabody revoking his order for martial law, which went into effect early in December. In Telluride district the military will continue to rule for the present, but Governor Peabody expresses belief he will be justified in suspending martial law there also in a few days. Municipal authorities immediately assumed their former duties and are now in charge of the district.

As soon as the proclamation of the governor went into effect, the commander of the military in Teller county ordered all prisoners in military camps removed to their county jail and turned over to civil authorities, which order was carried out. Some were released on bond and others returned to custody of the sheriff.

RESENT THE INSULT.

Havana, Feb. 2.—Senor Gomez, governor of the province of Santa Clara, has telegraphed United States Minister Squires saying the people of the province universally condemn the recent insult to the American consulate at Cienfuegos, when the secessionist over the building was snatched with mud.

NO CLAIM TO ISLANDS.

**Question of Ownership Will Be
Amicably Settled by the U.
S. and Great Britain.**

London, Feb. 2.—Ernest W. Breh, governor of British North Borneo, who has just arrived here, says Gen. Leonard Wood while recently at Sandakan, capital of North Borneo, informed him the question of ownership of the islands off the coast of Borneo, over which a United States war vessel had hoisted the American flag, would be amicably settled as there was no strong desire on the part of the Americans to keep them. The governor said Europeans there were so friendly to Americans that they have no doubt the United States will relinquish its claim.

Washington, Feb. 2.—Investigation here shows that General Wood was fully authorized to make the statement attributed to him relative to an amicable settlement of ownership of the islands off the coast of Borneo. The islands are said here to be practically worthless, but fearing the Sultan of Joha might undertake to bestow them on some other nation, the question of title was placed in the hands of General Wood with the understanding that the islands are to be declared part of the British or American possessions. It is presumed Wood will report to Washington in accordance with his statement to the governor of North Borneo and the question of title will be finally settled by treaty or protocol between the United States and Great Britain.

Washington, Feb. 2.—Attention of the state department was called to the Paris telegram quoting the alleged Washington dispatch to the effect the United States was cooperating with England, and France to bring pressure to bear upon Japan in the interest of opium, it was stated to day by Acting Secretary Loomis that there had been no such concerted action, that the United States had not and would not act with any other power in this matter.

CAUGHT IN ICE.

Cincinnati, Feb. 2.—A ferry boat plying on the Ohio river between New Richmond, Ohio, and California, Ky., while crowded with passengers was stove in by ice to day and was in danger of sinking. The passengers were panic stricken and begged the captain to go ashore. The boat, however, caught in the ice and drifted two miles before it could be brought to shore.

REPORT OF FIGHTING.

Panama, Feb. 2.—A report has reached the isthmus that Colombian troops are fighting with Indians on the San Blas coast, which is Panamanian territory. It is impossible, however, to obtain reliable confirmation of this.

The United States gunboat Hancock was to have sailed to day from Colon to Bocas del Toro, but orders were countermanded at the last moment because of report of fighting on the coast. A letter was received here some time ago from Captain Torres, commanding Panamanian troops at Chogo (directly south of the San Blas country) saying he had decided to cross over to the Atlantic side. There is a possibility Indians are fighting with Torres' command, mistaking them for Colombians.

CHOICE MISCELLANY

Price of a Family Skeleton.
Ancestral graves prove one of the most serious obstacles to railway making in China, and wherever possible the engineers have avoided them. Sometimes exorbitant prices are demanded for the removal of an ancestor's remains, but through the influence of Chinese interested in the railway something like uniformity has been arrived at, and the average price now paid for a grave is 4 taels (about 10 shillings). "Feng shui" presents another obstacle.

The literal translation of the term is "wind, water," but it is best explained as a system of geomancy which rules the daily action of the Chinese as a race. From the setting of a date for a marriage or a funeral to the location of a city. The site of every city, town or village has been fixed by geomancers after consulting the oracles. Each community has its guardian dragon or some such hypothetical monster, and voo betide the individual who proposes to cut it in two with tunnel or railway track!—Engineering Magazine.

The "Promoter" in England.
They have in London an "inspector general in companies liquidation," whose report on stock company insolvency for 1902, just issued, is not without interest on this side of the Atlantic. The total number of cases in which winding up proceedings were commenced during the year was 1,623, of which 1,501 were voluntary liquidations, 16 voluntary liquidations subject to supervision of the court and 112 compulsory liquidations by order of the court. The total number of new companies registered in England and Wales was 3,595. The total number of liquidating companies during the year was in proportion to the new companies registered 95 per cent as against 86 per cent during the previous year. In ten years the amount involved in liquidations was about \$2,800,000,000, of which the total loss to the investors was approximately \$1,000,000,000, a total respectable by comparison with American figures.

RECEIVERS FOR BIG CONCERNS

**TWO TEXAS CORPORATIONS
IN TROUBLE**

**The Kird Lumber Co. and the
Houston Oil Co. are Temperar-
ly Financial Straits With
Large Assets.**

Houston, Texas, Feb. 2.—The federal court at New Orleans has appointed temporary receivers for the Kirby Lumber Co. and Houston Oil Co., two of the largest corporations in Texas. The lumber company is capitalized at \$100,000. Its property consists of thirteen lumber mills and mercantile stores, all in Texas; 112 miles of railroads, 700 cars, 55 locomotives, 20,000 acres of pine lands, logging outfits, the mill and piling outfits. An inventory shows \$1,000,000 worth of lumber on hand, its assets are claimed to be \$12,500,000 in excess of liabilities. The oil company is capitalized at \$200,000 and owns 1,000,000 acres of pine land valued at \$20,000,000 and all properties of enormous value. It controls a large part of the Cordoba oil fields, the Sour Lake region and the Nacogdoches oil field.

According to a statement of Attorney McGowan application for receivers was made at the instance of the Maryland Trust company, holders of timber certificates of the Kirby Lumber Co., and guaranteed by the oil company, upon which interests was not paid when due. This amounts to \$700,000, which McGowan says will be paid soon and the receivership will be of only temporary duration. It is quite evident the receiverships are merely for the purpose of holding properties of the two companies intact until an amicable adjustment of pending negotiations can be brought about, which he thinks will be done before Feb. 17, the date set for final order in the case.

MR WHITNEY DEAD

**Former Secretary of the Navy
Passes Away at His Home in
New York.**

New York, Feb. 2.—The death of William Whitney caused much surprise, as at noon it was reported he was much better. Whitney was taken ill at a performance of Parsifal last Thursday and was compelled to return to his home. Physicians were called and announced Whitney was suffering from appendicitis. An operation was decided upon and it was performed Saturday night. The statement was made at Whitney's house this afternoon that death was due to peritonitis blood poisoning following the operation for appendicitis. The end was entirely unexpected as the patient seemed to rally from the operation.

add WITNEY
By his bedside were his son, Harry Payne Whitney, and his daughter, Dorothy Whitney, as well as Dr. Wm. T. Bul, chief surgeon in attendance.

Whitney was in his 61th year. When the physicians perceived the patient was in danger of death his son and daughter were immediately summoned. They hastened to the side of their father and in a few minutes he had breathed his last. Oxygen was used and all the skill of physicians and surgeons brought into play to save the life of the distinguished patient, but to no avail.

It was 5 o'clock before the simple fact of his death was made public. Later a statement was issued containing facts substantially as above stated and also announcing interment would be at Woodlawn at a date to be hereafter fixed.

CLEVELAND'S TRIBUTE.

Priestson, N. J., Feb. 2.—Former President Cleveland was deeply moved when he learned of Whitney's death. He said: "Whitney had more calm, forceful efficiency than any man I ever knew. In work that interested him he actually seemed to court difficulties and to find pleasure and exhilaration in overcoming them. His conquest over obstacles he encountered in undertaking to build up our navy afforded him great delight. His judgment was quick, clear and astonishingly accurate and when it was called into action his mental poise was so complete that neither passion or irritation could elude it astray. While I remember all of this with admiration and affection, I recall with more tender sentiment Whitney's devotion to his friends, his extreme consideration for all with whom he came in contact, his thoughtfulness for the ease and comfort of others and his ready impulse to help those who needed help. I mourn the death of a friend of whom it can be truthfully said that in his character were combined the mental traits of high order and loving qualities of heart that grappled him to his friends with hooks and steel."

GORMAN SHOCKED.

Washington, Feb. 2.—Senator Gorman, who was closely associated in political affairs with Whitney, to night said the death of Whitney was a great shock, adding that Whitney "was endowed with rare ability, and in dealing with public affairs had the breadth of wisdom which made him the equal of any of his contemporaries no matter how august. His death is a great loss to his friends, his party and his country."

FRANKLIN.
The revival which started two weeks ago at the M. E. church is still in progress. The interest continues and the pastor, Rev. M. L. Brownling, is preaching some very inspiring sermons. George Schaefer's general store narrowly escaped destruction by fire one day last week. The fire was caused by a defective fuse, but was discovered in time to be extinguished before it gained much headway. N. Z. Reinbach, Henry Scott and Homer VanWinkle represented Franklin at the Republican love feast at Springfield the 24th.

Mrs. N. Z. Reinbach, who went to Excelsior Springs, Mo., two weeks ago in search of better health, is reported improving. Rev. C. A. Burton, of Jacksonville, filled his regular appointments at the Christian church Sunday, Jan. 31.

The Loyal American camp No. 16 held its regular meeting Tuesday evening and ten candidates were initiated into the order. After the work was completed refreshments were served, consisting of sandwiches, nickles, cake and coffee.

The A. L. O. U. E. No. 16 held its stated communication Wednesday evening, Jan. 27, and the F. C. degree was conferred upon George A. Newman, of Plaquemine.

Miss Edith Hocking, daughter of R. H. Hocking, has been on the sick list for the past week, but is able to renew her work in the high school.

The classmates for Miss Wanda Reinbach treated her to a pleasant surprise Thursday evening, Jan. 28, in honor of the fifteenth anniversary of her birth. There were about twelve couples present and early part of the evening was spent in games, etc., after which refreshments were served by the committee having charge of affairs. The gathering broke up about 11 p. m.

Foley's Honey and Tar is best for cough and whooping cough, contains no opiates and cures quickly. Careful mothers keep it in the house. Sold by J. A. Obermeyer's Drug Store.

JUSTICE COURTS.
In Squire Henderson's court O. C. Henry and Daniel Keating were tried for running slot machines and dismissed. Squire Henderson says the clause under which the defendants were arrested was the following:

"No person shall obtain or attempt to obtain money or other property by any machine, device or game, the operation or result of which is dependent on chance or luck."

While the city was able to prove that articles called slot machines were kept in the places of the defendant the witnesses for the city could only testify that they saw something put into the machines and something taken out but were unable to swear that it was money and on that the court held the evidence was not sufficient.

A NIGHT ALARM.
Worse than an alarm of fire is the brassy cough of croup, which sounds like the children's death knell and it means death unless something is done quickly. Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs. P. L. Cordier, of Mammington, Ky., writes: "My three year old girl had a severe case of croup; the doctor said she could not live. I got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life." Refuse substitutes. J. A. Obermeyer's Drug Store.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. Sold by J. A. Obermeyer, City Drug Store.

FOUR COUNTIES HEARD FROM
Delegates to the next Republican state convention have thus far been elected from four counties, Ogle, Lee, Perry and Grundy. These counties in 1900 gave Yates only six votes even—on the final ballot, after the stampede that resulted in his nomination had taken place. In 1900 Ogle county, from which Mr. Lowden hails when he visits us, though a citizen and voter of Chicago, gave its thirteen votes to Walter Reeves. Lee county gave its solid delegation of twelve to Reeves, and Grundy was for Reeves. Perry county gave its votes to Yates. This year Ogle and Lee have instructed for Lowden, although it is believed to contain supporters for the governor. Grundy on the other hand, which is only one county removed from Lee, and adjoins the home county of Mr. Reeves, has elected an instructed delegation for Yates. This victory for the governor was entirely unexpected, coming as it did in a supposedly hostile district in close proximity to Chicago.

Mothers can safely give Foley's Honey and Tar to their children for coughs and colds, for it contains no opiates or other poisons. J. A. Obermeyer's Drug Store.

CHAMBERLAIN'S STOMACH AND LIVER TABLETS—UNEQUALLED FOR CONSTIPATION.
A. R. Kane, a prominent druggist of Baxter Springs, Kan., says: "Chamberlain's Stomach and Liver Tablets are, in my judgment, the most superior preparation of anything in use to day for constipation. They are sure in action and with no tendency to nauseate or grip." For sale my all leading druggists.

There are days of dizziness; Spells of headache, dizziness, buckache; Sometimes rheumatic pains; Often urinary disorders. All tell you plainly the kidneys are sick. Doan's Kidney Pills cure all kidney ills. Here is proof of it. In Jacksonville, Va., Veteran John Pyatt, who formerly lived at 338 West North street, said: "I was constantly annoyed with aches and pains through the loins and back and rheumatic twinges in my arms and shoulder and too frequent action of the kidney secretions. Often I had attacks of vertigo and dizziness, particularly so if I stooped and attempted to straighten up quickly. All the medicine I tried did not even check the trouble, let alone cure, until I procured Doan's Kidney Pills at Dr. H. Lee Hatch's drug store. Besides disposing of my aches and pains the general tonic effects of Doan's Kidney Pills are remarkable. I recommend them very highly."

For sale by all dealers, price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

A HAPPY MOTHER
WEATHERFORD, TEXAS, May 14, 1902.
Before my baby was born, I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health and took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.
Mrs. C. E. Kord
TREASURER, YOUNG MATRON'S CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble. Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.
All druggists sell \$1.00 bottles Wine of Cardui.

SCOVILLE MEETINGS.

The evangelistic services in the Christan church will begin next Sunday. Rev. Mr. Thrapp has appointed the necessary committees and the church is ready for the work. The services during January have been leading up to this special series of meetings. Seldom a Sunday passes but that additions are made to the church, fifteen being the record for January. Chas. Reign Scoville, now pastor of the Metropolitan church of Chicago will assist in the meetings by preaching and James S. Helm is his musical director. A large chorus choir is being organized and will be led by him. Dr. Scoville has had wonderful success as an evangelist. His greatest meeting was at Des Moines, Ia., two years ago when over 1,100 members were added to two of the churches there.

He is a man of magnetism and one who thoroughly knows the scriptures. During his meeting here four years ago over one hundred were baptised. His first sermon will be preached next Sunday morning. Engagement was made with the gospel workers several months ago to begin here Feb. 1st, but after considerable correspondence Rev. Mr. Thrapp succeeded in postponing their coming one week on account of the meetings on the west side.

A THOUSAND DOLLARS

THROWN AWAY.

Mr. W. W. Baker, of Plainview, Neb., writes: "My wife had lung trouble for over fifteen years. We tried a number of doctors and spent over a thousand dollars without any relief. She was very low and I lost all hope when a friend suggested trying Foley's Honey and Tar, which I did; and thanks to this great remedy it saved her life. She is stronger and enjoys better health than she has known in ten years. We shall never be without Foley's Honey and Tar and would ask those afflicted to try it. J. A. Obermeyer's Drug Store.

FUNERAL NOTICE.

The funeral of the late Mrs. Clement will be conducted at the family residence on South Clay avenue this morning at 10 o'clock by Rev. R. E. Thrapp.

FARM HOUSE BURNED.

Fire Monday night destroyed the house of Robert Lissington, five miles east of Murrayville. The family were asleep when the fire was discovered and everything in the house was lost. John Barker was severely burned about the hands and face in trying to rescue Mr. Lissington, who is past 90 years of age. The flames were so far advanced when discovered that nothing could be saved. The family had to go more than a mile over the snow to a neighbors'.

A PLEA FOR THE HORSE

It was quite time something was said and done to prevent the sufferings of the horses that haul coal through our city streets. With the roads in the present condition making a slippery uncertain footing it should appeal to both the agent and team owner to send out lighter loads.

Monday morning on West Coldge avenue a team was stalled; another returning team was put on to help start the wagon. With all their best efforts they struggled and pulled under the most unmerciful use of the whip from two men, one on the wagon and one on the ground. After terrible efforts the wagon moved and went on its uphill way, the leading team whipped across its legs every step as long as the beholders could see.

One look at their quivering muscles should move the coldest heart. I am told that Christmas day in all that cold blizzard the horses working on the new railroad were tied to fences all night and in the morning two were dead.

Where is the humane society while we are enjoying the benefits and privileges of these union meetings. Can not some one offer a prayer for the relief of the faithful, patient and unappreciated work horse? A Citizen.

Foley's Honey and Tar cures the cough caused by an attack of influenza. It heals the lungs. J. A. Obermeyer's Drug Store.

NEW BUS.

James Rutherford has added a fine new bus to his carriage line for use between the Dunlap hotel and the depot. The bus is handsomely upholstered, artistically trimmed and has rubber tired wheels. It was purchased from McCabe & Bierman, of St. Louis.

STRUBE TRIAL SET.

The circuit court at Havana will convene Monday, Feb. 8, and the prosecution in the case against Fred Strube will do everything in their power to bring him to trial this term. It is believed, however, that this will not be possible. T. T. Beach, of Lincoln has been retained to assist the states attorney in the prosecution. H. W. Masters, of Lewiston, and Layman Lacey, Jr., will conduct the defense.

ST. LOUIS FAIR.

Engineering Department of Illinois University Will Have An Exhibit.

St. Louis, Feb. 2.—The Illinois commissioners for the World's fair are in receipt of information from the University of Illinois that both the electrical and the mechanical engineering colleges are preparing elaborate but compact displays of their different departments. The former is capable of making a very elaborate and attractive exhibit, should the space permit day illumination. At any rate it will show different styles of wiring—exposed and conduit—concealed lamps, roof effects, etc. An exhibit of photographs is in preparation showing buildings and laboratory, views of methods of instruction which will be of interest to the public.

The mechanical engineering department display will contain photographic views of its magnificent hall and minor buildings, which of itself is most interesting. It will show work from the departments of machine design, steam engineering and railway engineering. From the shops it will send two complete sets of work illustrating a two years course of instruction, with blue prints illustrative of the examples, and from the special advanced department a 6-horse power tandem compound steam engine, a compound yacht and other engines, sample work bench, drawings illustrating courses of instruction in the three departments—machine design, steam engineering and railway engineering. Railway test car No. 17 will doubtless also be put on exhibition. This will include apparatus used and results of work done by the car. The work of graduates and undergraduates will be accompanied by photographs, charts and diagrams.

The civil engineering department exhibits will contain bound volumes of class work in field practice—drawings showing railroad maps, masonry arches and bridges, and as in many of the other departments, showings will be made of the attendance in the college for a given number of years. Photographs of buildings, interiors, etc., will also be exhibited. The state commission have set aside \$8,000 to the university to make its display.

It is understood that Mrs. Eugene M. Davis, of Decatur, president of the Illinois Federation of Women's clubs, is considering plans for having a great conference of Illinois club women in the Illinois building on the fair grounds during the fair.

FEBRUARY WEATHER.

Winter is not over yet. February is a short month and sometimes a very cold one, and while there are sometimes mild days in February, the monthly mean of 31 degrees shows that it can not be depended on as a good cropping season. The coldest February ever known was that of 1899, when the average temperature for the month was 19 degrees, and this was too recent to be forgotten. The main facts about February weather for the past twenty-four years, as shown by the records of the weather bureau at Springfield are as follows:

Mean or normal temperature, 31 degrees; warmest month was that of 1882, with an average of 43 degrees; coldest month was that of 1899, with an average of 19 degrees; highest temperature was 72 degrees, on Feb. 12, 1882; lowest temperature was 21 degrees below zero, on Feb. 9, 1889; average precipitation for the month, 3.11 inches; greatest monthly precipitation, 7.52 inches, in 1882; least monthly precipitation, .091 inches, in 1885; greatest amount of snow fall recorded in twenty-four consecutive hours was 15 inches, on Feb. 25-28, 1900.

ROSE WILL CAMPAIGN BY MAIL.

Owing to his physical condition Secretary of State James A. Rose has decided not to make a personal canvass of the state in his campaign for the nomination for governor, but will reach his friends through correspondence.

Secretary Rose came to this decision after a consultation with his attending physician. A correspondence bureau will at once be established and literature will be sent to voters in all parts of the state. Mr. Rose has been in an enfeebled condition for several weeks and is not able to make a tour of the state at this time.

MAY TRY STRIKE IN NEAR FUTURE.

Havana, Feb. 2.—The circuit court convenes Monday, Feb. 5. Although the prosecuting attorney will make every effort to bring Fred Stride to trial, it is not considered probable he will be tried this term. T. T. Beach, of Lincoln, has been retained by Newton Henninger to assist State's Attorney Gay R. Williams in the prosecution. H. W. Masters, of Lewistown, and Lyman Lacey, Jr., will conduct the defense.

DAILY JOURNAL, 10c PER WEEK.

NEW YORK AND LONDON.

A comparative statement of the bank clearings in New York and London shows the curious fact that while those of the American city are declining in comparison with the highest total scored here, the transactions of the banks of the British metropolis are advancing. While New York's clearings for 1901 were \$5,000,000,000 below those of 1901, which were the highest mark ever touched here, the clearings of London's banks in 1901 were \$3,000,000,000 above those of 1901 and \$200,000,000 above those of 1902.

Nevertheless New York is still far ahead of London in the grand total. While New York's clearings in the year recently ended amounted to \$5,000,000,000 in round figures, those of the London banks were only \$2,000,000,000. The American city was more than \$3,000,000,000 ahead of the British metropolis in this very important activity. If the bank transactions be a fair criterion of the volume of general business, then New York is far ahead of London in the grand aggregate of its trade. The proportionate extent to which checks are used in business in the two centers, of course, is a matter which has a very important bearing on these figures in making a comparison based upon them between the two cities.

It is a fact however of great significance that London was ahead of New York in this particular in 1898. In that year for the first time the American city got ahead of its British rival in this particular. New York has been ahead ever since, though its lead has been shortening since 1901. This is only a temporary check due to the falling off in the volume of speculation, which has much to do with swelling the clearing total in both cities. There are indications that the upward turn in New York is near at hand, though 1901 will probably not reach the 1901 mark. New York is only about two-thirds as large as London in population but it is gaining rapidly. It has more wealth in the aggregate than London. The day when the world's financial center will cross to the western side of the Atlantic is evidently close at hand—Globe-Democrat.

The Sham Brier Pipe.

The other day it was reported from Prussia, says the Westminster Gazette, that, though the amber industry had been dull of late, the trade in imitation amber had been highly satisfactory. It now seems, smokers will be interested to know, that even the brier root pipe is not what it is supposed to be. The brier root of commerce is the root of the large growing heath (Brier arborvitae). Brier in this connection is said to be a corruption of "bruyere" (heath). The brier root industry has had a somewhat curious history. First begun in the Pyrenees some fifty years ago, it traveled along the French Riviera and the Ligurian coast, taking Corsica by the way, to the Tuscan Maremma and reached Calabria in the south. By the very nature of the business, when a certain district has been exhausted of all its roots the industry must come to an end there. The Italian branch is not expected to survive more than ten years.

The Beginning of Cotton Thread.
 Ex-Provost Clark of Paisley, England, has been relating the origin of cotton sewing thread, which was first used in that town in the weaving of "huddles" as a substitute for silk, which was stopped by Napoleon in 1803, when he seized Hamburg. Mr. Clark's grandfather and his brother then bethought them of cotton, which worked so smoothly that Mr. Clark's father, then a youth, took to recommending it to women instead of linen, then mostly used. Originally it was sold in hanks or skeins. These the women had to wind into little balls, as they do a cut of wool at the present day. Wishing to convenience them, young Clark on selling a skein of thread would sit down at a pin wheel and wind the thread on a bobbin, for which he charged a halfpenny. This halfpenny was refunded when the empty bobbin was returned. Such was the beginning of cotton thread.

American Families.

According to the statistical atlas of the United States, newly issued by the census office, the average number of persons to a family has declined from 5.6 in 1850 to 4.7 in 1900. In 1870 the average was a trifle above 5.

In 1900 the average ranged from more than 5 in Texas, North Carolina, West Virginia and Virginia down through 4½ in Iowa and Illinois to 3.4 in Nevada. Nearly all the southern states lead in the size of families, while the six New England states, with New York, California and Washington, bring up the rear. New York's average is about 4.3.

Large Mileage.

Distance lends enchantment to service in congress. The delegate from Hawaii will receive nearly \$15,000 during his term of two years in addition to his salary of \$10,000, besides drawing an allowance for clerk hire and stationery. The \$15,000 is the bonus, or rather the mileage, which he receives because he lives in the Sandwich Islands. A delegate to congress from the Philippines would be able to collect about \$25,000 mileage if there should happen to be an extra session during his term. Otherwise he would get about \$24,000.

Sad News For Gum Chewers.

The saddest news that has come out of Maine in a long time is that the spruce gum crop is short. This means that chewing gum will cost more this year or gum chewers will get less for their money. Most of the gum put up by the great chewing gum concerns comes from the spruce trees of Maine, and the shortness of the crop, therefore, is of direct interest to every messenger boy, typewriting girl, saleswoman and cash girl who has the gum chewing habit.

REPUBLICAN CONVENTION FOR MORGAN COUNTY.

A Republican delegate convention for Morgan county is hereby called to meet in the circuit court room in Jacksonville on Tuesday, Feb. 16, 1904, at 12 o'clock, noon, for the purpose of electing delegates to the state, congressional and senatorial conventions, and the transaction of such other business as such convention may choose.

The basis of representation for the voting districts will be one delegate for every twenty-five votes and fraction thereof cast for William McKinley in 1900 and upon this basis the various precincts, and voting districts will have delegates as follows:

W. A. MORRISSEY, Secretary.

Dated Feb. 1, 1904.

REPUBLICAN PRIMARY—NO. 5.

The Republican voters of District No. 5, Jacksonville precinct, are requested to meet together at the circuit court room in the court house Thursday evening, Feb. 11, at 7:30 o'clock, for the purpose of electing thirteen delegates to the county convention to be held Feb. 16.

Jar. H. Dankin, Committee Chairman No. 5.

PEORIA & ST. LOUIS STATEMENT.

In the annual report of the Chicago, Peoria & St. Louis road, which has just been issued, Charles E. Kimball, president, says: "The gross and net earnings for the fiscal year ended June 30, 1903, are the best the property has ever had. East St. Louis terminals are now in full use and practically completed, at a cost aggregating \$23,000. The coal business for the year, both on the Litchfield and Madison branch and at the northern mines, shows gratifying increase over any previous period. Earnings of the system for the last two years compare as follows:

	1902.	1903.
Gross earnings	\$1,710,171	\$1,927,775
Expenses and taxes	1,386,011	1,241,921
Net income	\$324,160	\$685,854
Other income	14,897	26,837
Total income	\$339,057	\$712,691
Charges, etc.	23,752	234,016
Surplus	\$5,302	\$478,675

Estate of Henry Rustmeyer, deceased; final report approved. Application of A. B. Pemberton for admission to eye and ear infirmary; petition and evidence heard and certificate made of admission.

NERVOUS PEOPLE.

Something You Ought to Know.

"No nerves and never irritable." This is what our well known druggist, Lee P. Allcott, says people report after taking Vinol. "It is remarkable," said Mr. Allcott to the editor of the Journal, "how many people buy sedatives and all sorts of opiates to quiet and deaden the nerves, when they are weakening their entire system by doing so."

"Nerve troubles are easily cured," continued Mr. Allcott. "It is simply a case of treating the general weakness, not the nerves alone, and that is just what Vinol does in the most direct and simple manner possible. It cures nerve troubles because it builds one up and makes one strong all over. It invigorates the entire nervous system, makes new blood and vitality."

"Vinol contains no drugs and you know what you are taking—simply the medicinal curatives found in cod liver oil dissolved in a delicious table wine and a little organic iron added. It is fast superseding old forms of cod liver oil and emulsions because it is so delicious to the taste."

Such letters as the following prove what Vinol will do: Mrs. Richards, of 32 E. Montclair St., Detroit, Mich., writes: "I was very sick and suffered from nervous prostration, tried all sorts of medicine without relief. I have now taken four bottles of Vinol and it has brought back my health and strength."

Miss Lizzie Leary, of Burlington, Vt., says she was a nervous wreck, and Vinol restored her to perfect health.

Miss Edythe M. Perry, of St. Paul, Minn., says Vinol cured her of nervousness and insomnia.

And so we might go on quoting from hundreds of just such letters; and it is for this reason that we say to every nervous, run-down and debilitated person in Jacksonville, try Vinol and it will do not cure you, come back and get your money.

PRAIRIE STATE MINING COMPANY.
The following article regarding the Prairie State Mining Co. in which a number of Jacksonville people are interested, appeared in a recent issue of the Joplin (Mo.) Daily Globe:

"The Prairie State Mining company, a corporation operating on the land of the Continental Mining Co., where it has a six lot lease, is now reaching a point where it will begin reaping the harvest of its investment. The company, which is composed largely of Bloomington and Jacksonville, Ill., parties has kept on with its development work, after striking ore, until now it has a drift sixty-five feet in ore, besides three other shafts in ore of a good grade. Drill cuttings show a 25 foot run of ore, the cuttings just as they were pumped from the drill hole, assaying 32 per cent, which is one of the richest showings ever made from cuttings. Manager C. A. Morsman is driving his drift to develop the ore body shown in this drift hole. In fact the shafts and drills which have opened up the property have confirmed the drill record thus far and the Prairie State has a showing worthy of its surroundings of big mines."

"The officers of the company are F. V. Hamilton, president; C. F. Shinkle, vice president; C. W. Athey, treasurer; J. H. Morsman, secretary, all of Joplin; C. A. Morsman, of Joplin, manager. A fine concentrating mill of 15 tons daily capacity, transmission inclines from the four shafts to the mill, which is of latest improved model, will be completed in a very short time. Mr. J. H. Morsman being here at this time to rush the work of getting the mill in operation. The mine is sufficiently developed to supply the mill with ore as soon as it can be completed."

GAVE EXHIBITION.

Senior Pupils at School for Deaf Entertained Their Friends Tuesday Evening.

A gymnastic exhibition was given at the School for Deaf Tuesday evening to a limited number of invited guests by members of the senior classes. There were five numbers on the program and while all the movements were splendidly executed, the classic dancing created the most interest and the artistic work of the performers was highly creditable.

The exhibition certainly speaks well for the instructors, Miss May S. McCully and Mr. Robert H. Halstead, and showed that they have succeeded in developing their pupils to a remarkable degree of gymnastic efficiency.

The program was as follows:

March.
Swedish Gymnastics.
Indian Clubs.
Parade and Long Horse.
Classic Dancing.
Gymnastics.

The members of the classes are Ethel Crunk, Emily Obermiller, Maggie Smith, Edith Dees, Pearl Wadzinski, Edna Finckel, Rose Congdon, Alta Dunn, Winnie Crocker, Stella Mitchell, Sadie Henker, Bertha Madden, Anna Sollenbecher, Josie Botsford, Anna Reed, Hendrika Lande, E. Johnson, J. Freeman, L. Werner, H. Handrock, A. Valentine, R. Coberly, A. Tate, W. French, T. Earnst, H. Swauwick, F. Mikado, G. Johnson, G. LeBroek, C. Russell, A. Johnson, J. Meyers.

ENTERTAINED SOCIETY.

The Young Woman's Missionary society of Grace church met with Mrs. Weir Elliott on South Main street Monday afternoon. The members of the Daughters of the Covenant of Centenary church were guests of the society and a most interesting program had been arranged. The afternoon program was opened by devotional services and after a short business meeting the following program was listened to:

"Methodist Missions in Northern China"—Mrs. Wm. Clifford.
Song—Written by Mrs. Wm. Springer and was sung as duet by Mrs. Weir Elliott and Mrs. Kinman.

Reading—By Miss Elizabeth Groves who read selections from the book, "Rex Christus," which is now being studied by the society.

Following this program was a social hour during which excellent refreshments were served.

COUNTRY CLUB ELECTION.

The directors of the Jacksonville Country club held their annual meeting in Judge E. P. Kirby's office Tuesday evening. The annual election of officers took place, the appointment of committees and other routine matters of business were discussed. The affairs of the club are in a splendid condition and a prosperous year is anticipated. The following officers were chosen to succeed themselves. President Edward P. Kirby, Vice president James G. Capps, Secretary and treasurer Chas. G. Rutledge.

The members of the house committee are Dr. William B. Young chairman, A. G. Burr, Miss Grace Carter, Mrs. A. M. Upham, Mrs. W. D. Alexander.

The members of the greens committee are: H. L. Doan, chairman, Frank Robertson, W. E. Killen, Geo. H. Scurlock and Chas. S. Sanders.

WILL RAISE MONEY.

Synodical Educational Commission in Session Here Tuesday—Plans for an Active Campaign Made.

The education commission of the Presbyterian synod of the state appointed at the last meeting of the state synod held a session in Jacksonville Tuesday. The meeting was attended by fifteen members of the commission representing the districts from Chicago to Cairo.

The commission decided to attempt to raise \$1,200,000 within a period of five years for aiding and assisting of the following colleges: Illinois college, Jacksonville; Lake Forest college, of Lake Forest; Blackburn college, of Carlinville; Genoa institute, of Genoa; and Union academy, located at Aurora.

An address will be prepared and sent to the people of the synod and an effort will be made to secure the aid and hearty cooperation of every Sunday school, Young Peoples society and church in the synod. A pamphlet will also be issued with illustrations showing the buildings of the various institutions setting forth their needs and urging a liberal contribution toward the continual maintenance of these institutions whose records, past and present, are monuments to the men who have labored for their upbuilding and welfare. In this address the fact will be emphasized that these colleges are not in conflict with the state university and the larger denominational colleges of the state, but they are the main dependence for a large proportion of the population who must get their college training inside their walls if they get it at all. The work will be pushed vigorously and earnestly.

The following members of the commission were present: Dr. C. M. Brown, Jacksonville; Dr. McCouchtry, Streator; Principal Thompson, Genoa; Dr. Marquis, of Rock Island; Rev. Donaldson, of Sterling; C. C. Marquis, of the Bloomington Pautograph; Bloomington; Rev. Parkhill, of Carbondale; Dr. Denlinger, of Bloomington; Rev. Alvord, of Aurora; Dr. Bradley, of Carlinville; Dr. C. B. McAfee, of Chicago; Dr. Holler, of Litchfield and Rev. Blair, of Paris.

FOR SICK AND NERVOUS PEOPLE.

We have a cure for nervous and steady people, weak, fleshless people, and pimply, pale or sallow people; people who are troubled with loss of ambition, failing memory, depression of spirits, lack of confidence, nervous headache and wakefulness, all these symptoms are produced by weak nerves brought on by the watery condition of the blood. Make strong, rich red blood, and furnish food for the nerves is the way to stop the source of disease, and cure them is only a question of days. The best flesh and food builder is Dr. Gunn's Blood and Nerve Tonic, in tablet form to take at meal time. Sells at 75c a box or three boxes for \$2, at all druggists. People gain from 1 to 3 pounds of solid healthy flesh per week, by the use of this medicine. This is an indication that it is doing good. Lee P. Alcott, Druggist, east side square.

STOP IT.

EXCUSE MAKING

Was the Theme of Evangelist Jordan Last Night at State Street Church.

It is indeed encouraging to see how the people continue to attend the revival meetings in spite of the cold weather. Last night and the night before were unaccountably cold but the audiences were remarkably large and the meetings are constantly gaining interest.

Yesterday afternoon Mr. Jordan spoke on the subject, "Pentecost." His talk was especially helpful and inspiring. He called attention to the preparation for Pentecost, the conditions necessary for the baptism of power. He showed the wonderful event itself in graphic clearness, and the results which followed out of it, results which no ordinary causes could have produced. He was listened to with close and serious interest.

"Made Excuses" was Rev. Mr. Jordan's theme last night at State Street church and he gave a strong, eloquent and convincing address to the fairly well filled house. While it is an old subject yet every day some man or woman is yielding to its power and in every walk of life excuses are to be heard.

At the close a number asked for prayer and several decided for the better life. No service thus far has seen so many under conviction and the prayers of all christian people are asked for that that holy spirit may be able to work in mighty power in Jacksonville.

ANNOUNCEMENTS.

This afternoon at 3 p. m. Mr. Jordan will speak on "Personal Consecration."

Meetings at 3 and 7:30 p. m. to day and Thursday. The public are cordially invited to attend these meetings.

THE DEATH RECORD.

NORTON.

Mrs. J. P. Norton passed away at her home, 1324 South Main street, Tuesday evening at 11 o'clock after an extended illness. She had been a sufferer from consumption for the past six years but was not confined to her bed for more than ten days prior to her death.

Mrs. Norton was born in South Cayuga, Ontario, 44 years ago and was married in Ingersoll, Canada, in 1883. Her maiden name was Allbright. She was a member of the Blue Ribbon temperance society and was a woman of kindly disposition and unselfishness. She had resided in this city thirteen years. In addition to her husband, James P. Norton, she is survived by her parents, Mr. and Mrs. Allbright, of Camden, Ontario, one brother, John Allbright, of Port Dodge, Ill., and one sister, Mrs. Living, of Sapperton, Ontario. Mr. Norton will have the deep sympathy of a large circle of friends in his bereavement.

The funeral arrangements have not yet been completed.

CLEMENTS.

Mrs. Elizabeth Clements, wife of Thomas R. Clements, passed away at 2:30 o'clock Tuesday morning at the hospital. She had been ill about two months.

Mrs. Clements was 59 years of age and was a faithful member of the Christian church of this city. Her death will come as a sense of personal loss to many. She had resided in this city for fifteen years and is survived by her husband and one son, James H. Clements.

The funeral will be conducted from the family residence this morning at 10 o'clock with services in charge of Rev. R. F. Thrapp. The remains will be taken to Chatlam for interment.

ENGLISH WOMAN PROVERBS

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair. The presence of dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use. Herpicide makes an elegant hair dressing as well as dandruff cure. Accept no substitute—there is none. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

FOR THE HOUSEWIFE

Canned Goods.

Canned fruit is best opened a short time before needed that it may be well aerated, and if it has been canned without sugar it should have the necessary quantity added, so that it may be well dissolved before using.

Fruit or vegetables canned in tin cans should be removed from the cans as soon as opened. If not the action of the air sometimes causes the acid of the fruit or vegetables to act upon the tin and form a poisonous compound.

Fruit purchased in tin cans should be selected with the utmost care, since unscrupulous dealers sometimes use cans which render the fruit wholly unfit for food.

The following rules, which we quote from a popular scientific journal, should be carefully observed in selecting canned fruit:

"Reject every can that does not have the name of the manufacturer or firm upon it as well as the name of the company and the town where manufactured. All 'standards' have this. When the wholesale dealer is assumed to have his name on the goods, be shy of him.

"Reject every article of canned goods which does not show the line of resin around the edge of the solder of the cap, the same as is seen on the seam at the side of the can.

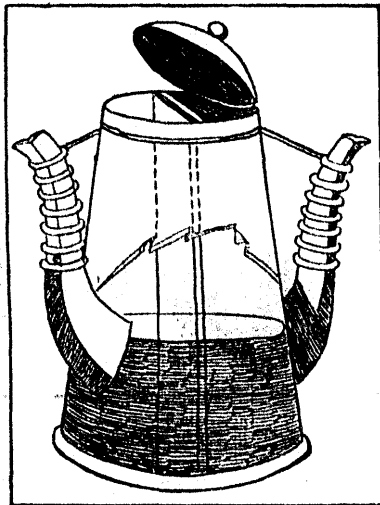

"Press up the bottom of the can. If decomposition is beginning, the tin will rattle the same as the bottom of your sewing machine oil can does. If the goods are sound, it will be solid, and there will be no rattle to the tin.

"Reject every can that shows any rust around the cap on the inside of the head of the can. Old and battered cans should be rejected."—What to Eat.

A Coffee-Tea Pot.

There used to be a magellan who would pour hot or cold water out of one and the same vessel at the desire of his bewildered audience. How he did it we are not informed, but it must have been in some such manner as is accomplished by means of the new coffee-tea pot on which Uncle Sam has just granted a patent.

Guests may now be served by their hostess with either coffee or tea out of the same vessel, and the thing is really

COFFEE OR TEA.

so simple that a description is hardly necessary after one has glanced at the accompanying illustration.

A vertical partition extends from the bottom to the top of the pot, separating it into two compartments, one of which is designed to be occupied by each of the beverages. Each compartment is provided with a spout, these being on directly opposite sides. Chilling each spout is a coil of strong wire forming handles for lifting the pot and pouring the contents.

Table Linens.

As in everything else, from wearing apparel to house furnishing goods, fashions in table linen show a decided trend toward oriental effects, tempered, however, by American ideas in decoration. Not only is the oriental fancy exhibited in the exquisite and delicate Armenian work, but in the rich looking and elegant table sets in white and blue Chinese grass linen, a beautiful fabric, embroidered all over in dragon designs, roses, cherries and carnations.

Fine and lovely as these several styles of table pieces are, they possess that quality so appreciated by the housewife, the capacity for coming out of the laundry as smooth and dainty as before they were put to use. This cannot be said of other more expensive and elaborate table sets of rich and fine laces, which require great care during the cleansing process in order to preserve their beauty. Most fashionable among these are such old favorites as duchess lace, and point de venise, with the old fashioned cut work, called by many Irish point.—Harper's Bazar.

"Fling Up" in the Sickroom.

In a sickroom, when quiet is imperative for the patient, never shovel coal on to the fire. Instead have the coal scuttle filled with lumps of coal, each wrapped in a piece of paper. Take these out one at a time with the fingers, which may be protected with a leather glove kept for the purpose in the room. When making up the fire take care to put a screen between it and the patient or the flames may wake him from a refreshing sleep.

Artistic Decorating.

In house decoration, according to one authority, when two contrasting colors are used there must be two subordinate repetitions of it or the room will not be artistic. Every color in a room must occur or be suggested three times. It may not be any more than the color of a gown in a picture, but it must be there.

The blouse, with tucked plastron of the same satin, is trimmed with bands of the embroidery, forming standing collar, turnover collar with cravat ends, half bretelles and shoulder straps. The sleeves are box plaited on the outside and finished with cuffs ornamented with stitching, forming points. The belt is of the satin.

The Chiffon Blouse.

Every tailor made gown of the present moment has as a bodice one of those charming blouses of chiffon and lace, the chiffon being in the same color as the costume and all carrying out the new idea which we seem to be exploiting—i. e., the skirt and waist to match. These chiffon bodices are really the prettiest fad we have indulged in for a long time. They are made always in a tone of chiffon to match exactly the costume with which they are worn and are generally made up in the style of a full bodice of accordion plaited chiffon, fitting somewhat loosely over a tight fitting lining of satin or silk. Then a bolero or stole of lace with half sleeves and collar is added. Often stripes of old lace form the only

INDICATIONS.

Washington, Feb. 2.—For Illinois: Fair, continued cold Wednesday and Thursday; fresh west to northwest winds.

FREIGHT WRECK.

A freight wreck took place at 11:45 o'clock Tuesday morning on the J. & S. L. road on the Apple creek grade near Franklin. It was a rear end collision and resulted in the burning of a caboose and a car of railroad ties. One locomotive was somewhat damaged and the track was torn up badly. The wrecker was sent from Litchfield promptly but it was late in the afternoon before the track was cleared. Soon after the collision it was feared that the results would be exceedingly serious and that many cars would be burned. However, the men finally succeeded in checking the flames.

FUNERALS.

LARGE.

The funeral of the late James Large was held at the home of his son on South Main street Tuesday afternoon. The officiating minister was Rev. A. L. T. Ewart, pastor of the Centenary M. E. church, of which Mr. Large was a consistent member. Excellent music was furnished by young people of the church. The services were in keeping with the character of the deceased and were solemn and impressive. The bearers were Messrs C. H. Widmayer, Jas. E. Self, Stephen Dunlap, R. W. Simmons, J. C. McBride and Jno. C. Williams. Interment was in Jacksonville cemetery.

WHITLOCK.

The funeral of Bernice Whitlock infant daughter of Mr. and Mrs. L. H. Whitlock, took place at 2 o'clock Tuesday afternoon at the family home. The services were in charge of Rev. W. H. Musgrove who spoke

impressively. Interment was in Diamond Grove cemetery, where the little grave was covered with flowers. The bearers were Bernice Ellis, Susie Sings, Kathleen Sage and Lucille Wyatt.

LYNNVILLE.

Last week was so intensely cold that the news-monger was not much in evidence so there is not much in the way of items at this date.

Among those who visited Jacksonville Saturday, were Messrs Thomas Gibbs, Geo. Beck, Bessy Houston, Ernest Stainforth and others.

Pearce Dickinson was unfortunate in breaking an axle, of his vehicle while on the road to Jacksonville one day last week.

Miss Laura Brassfield who visited relatives, in Scott county for two weeks, returned home last Thursday.

After spending Sunday with his family here, W. R. Coulter, though feeling quite unwell, went to assume his duties Monday.

We are credibly informed that W. Emmons, who has been selling groceries in Jacksonville for several months, will take up his residence in Lynnville in the near future.

The numerous friends of P. A. Johnson were very sorry to hear of his prolonged and serious illness at his home in Jacksonville. Mr. Johnson was raised here and everybody is hoping for more favorable news from him soon.

C. W. Jones transacted business in Jacksonville Monday.

A number of children have been out of school for the past two weeks with ailments and Dr. Roberts' services are still in great demand.

The carpenters are making fine headway on the dwelling house being built for J. Baker and it will soon be ready for occupancy.

Tuesday was ground hog day and if the old saying proves to be true we need

not expect the advent of spring for six weeks at least.

Remember the date of the C. W. B. M. institute the seventh of February, which will be next Sunday. Everybody come.

ROUTT CLUB DANCE.

The members of the Routt club and invited guests enjoyed a "rag time" dance at Liberty hall Tuesday evening. The dancers appeared in costume and many of them were very cleverly made up. Excellent music was furnished by Miss Wood and Mr. Osborne and there were about seventy-five couples present. The affair was given under the auspices of a special committee composed of the younger members of the club and they certainly deserve great credit for the splendid manner in which the dance was managed.

A TRAVELING MAN'S EXPERIENCE.

Mr. Albert Eldredge, representing the Edgar Printing Co., Paris, Ill., says: "I used Harts' Honey and Horehound during the winter of 1901 and 1902 for a bad cold and a gripper. I found it an excellent medicine, which effected a cure in a short time." Our readers are invited to call on the druggist named below and secure a large sample bottle of this excellent medicine free. 25c, 50c and \$1 bottles sold by Lee P. Allcott.

Coroner Still Investigating Cause of Miss Murgatroyd's Death
—Dr. Manley's Statement

Coroner Reynolds yesterday commenced an investigation as to the cause of the death of Miss Stella Murgatroyd. Dr. Manley, who is charged with performing a criminal operation which caused the young woman's death, was arrested in Franklin Tuesday morning by Sheriff Rogers and was brought to the city on the noon train. A warrant has been issued for John Pate who is charged with being an accessory to the crime. Pate had been summoned to come before the coroner's jury, but failed to appear.

The jury listened to the evidence of Dr. J. A. Day, Mrs. Pate, Dr. F. P. Norbury, Dr. T. J. Pitner and Dr. Edward Bowe. Dr. Manley was taken to the coroner's office soon after his arrival here and said he was ready to testify before the jury, but later on the advice of his attorney, Judge C. A. Barnes, decided not to give his statement. The jury adjourned until Wednesday morning.

DEATHBED STATEMENT.

As a part of Dr. Day's testimony, he gave the death bed statement of Miss Murgatroyd which is as follows: "I, Miss Estella Murgatroyd, a single (unmarried) lady, 27 years of age, do hereby and in the presence of witnesses, solemnly declare that I was pregnant about three and one-half months by John Pate, and that on Jan. 21, 1904, about 2:30 o'clock p. m., Dr. W. C. Manley produced a criminal abortion upon me at his office in Jacksonville. I furthermore declare that on the morning of Jan. 24, 1904, Dr. J. A. Day was called to attend me and he afterwards, on the same day, called and consulted with Dr. F. P. Norbury over my condition. I declare furthermore that Dr. F. P. Norbury and J. A. Day had no association whatever in the commitment of the abortion.

"(Signed) Estella Murgatroyd
"Witnessed—
"Frank P. Norbury.
"J. A. Day."

PHYSICIAN'S STATEMENT.

The evidence given by Dr. J. A. Day was the most extensive as he was the physician who was summoned to attend the sick woman. He first saw her about 9 o'clock Sunday morning Jan. 24, having been called by John Pate. Dr. Day said in part:

"While Miss Murgatroyd's mother was absent from the room she told me she had something to confide in me but implored me to say nothing to her parents. Then she told me of her trouble and that she had had a miscarriage Friday night. The full details of her trouble were told me. After doing what I could for her I hastened to Jacksonville and for my own protection told all the facts to Dr. Norbury. He acceded to my request to accompany me to see the patient again. Before going I wrote out a statement for the girl to sign, embodying the facts she had given me but leaving blanks for the names and dates. The statement as signed has already been given. The Friday following I took Dr. T. J. Pitner out to see the patient. To him she told the same story as to the others of us, that Dr. W. C. Manley in his office here, Jan. 21, 1904, performed an abortion. Further she said that Dr. Manley had an office with Dr. Corvill in the Price building on East State street. The girl was perfectly rational when she gave the statement, and knew that her death was very likely to follow. I am personally acquainted with John Pate. He was in my office after the death of Miss Murgatroyd Sunday afternoon. He stated that he had met the coroner on the street and had acknowledged service to appear before the jury. He asked what the developments had been in the case and I told him what had been done. Upon that he broke down and cried, grasped my hand, said good bye and left my office."

DR. MANLEY TALKS.

Dr. W. C. Manley is being held at the county jail awaiting the decision of the coroner's jury. When seen last night at the jail he strongly declared his innocence in the matter, stating that he did not know Estella Murgatroyd or John Pate and that neither of them were ever in his office, nor had he ever seen them. He did not know any member of the family. He said he was never quite so humiliated as in his present surroundings, but he was there because of some conspiracy, for he had been played as the victim into a deep laid plot to take from him his standing as a physician in this county. He was willing to await a thorough investigation by the coroner's jury and he was sure the evidence that would be offered would vindicate his position in the matter.

When Sheriff Rodgers called at his home in Franklin early Tuesday morning and announced the bad news for him he could not believe the story told by Mr. Rodgers and was as anxious to come to Jacksonville to make explanations as the officers were to have him come.

On his arrival in the city he went with the sheriff to the coroner's office and expressed his willingness to go before the jury and tell them all he knew about it. Coroner Reynolds told him he was entitled to counsel if he should wish an attorney and he consulted with Judge Chas. A. Barnes. Dr. Manley being advised by Judge Barnes that little could be gained by testifying before the jury he decided not to say anything before that body.

WALKER-TAYLOR.

Harry F. Walker and Miss Alma A. Taylor were married Tuesday evening at 8 o'clock at the home of the bride's father, Geo. Taylor, 830 Voorhes street. There were about sixty guests present and the wedding service was beautifully and impressively said by Rev. R. F. Thrapp, pastor of the Christian church. The attendants were Miss H. May Dawson and Ernest G. Jordan.

The bride is a young lady of charming personality and attractive manner. The groom is in the employ of the Illinois Telephone company and is a young man of industry and integrity. Both young people have a wide circle of friends who will join in wishing them a most happy and prosperous married life.

After the words of hearty congratulation had been spoken delicious refreshments were served.

Those present from out of the city were: Mr. and Mrs. Wm. Petrie, of Whitehall and Mr. and Mrs. J. A. Dawson, of Manchester. Mr. and Mrs. Walker will reside at 316 West North street.

LAYMAN-LEWIS.

Lewis Layman, of Jacksonville and Miss Lulu Lewis of Virginia, were married in Springfield Sunday afternoon at 5:30 by Nelson P. Lyons, pastor of the First Methodist church of Springfield. Until recently the bride and her mother were residents of this city but for some months their home has been in Virginia.

The marriage has been opposed by the mother of the bride and last Wednesday the plans of the young couple were thwarted after the groom had secured a marriage license in Springfield and was waiting for the arrival of his bride to be. Mr. Layman returned to this city and on Saturday Miss Lewis came to Jacksonville and the couple went to Springfield Sunday morning where they were married. When Mrs. Lewis learned that her daughter had gone to Springfield she immediately left for the capital city but arrived too late. Finding that the marriage had taken place the mother became reconciled to the situation. Both young people are well known in Jacksonville, where Miss Lewis has been employed in the Franks' dry goods firm. They will reside in Springfield.

CANDLEMAS DAY.

Tuesday was Candlemas day in the Roman Catholic church. It is to commemorate the taking of the child Jesus by his parents as is narrated in Luke.

"And when the day of her purification according to the law of Moses were accomplished they brought him to Jerusalem to present him to the Lord and to offer a sacrifice according to that which is said in the law of the Lord. A pair of turtle doves or two young pigeons."

From the words of Simeon, the priest, comes the famous Latin chant "Nunc dimittis," etc.

Services were conducted in the Catholic church in this place at 9 a. m. Tuesday.
